

MAUREONIX

WhatsApp Multi-Device Bot

ABOUT

Maureonix is a powerful WhatsApp bot with over 150+ commands. It supports music/video downloads, AI chat, stickers, games, group management, and much more. Fully translated to English.

OWNER

Name: Infinite Vybeflix

WhatsApp: +254 116 903 500

GitHub: luckyfelistine-bot

LINKS

WhatsApp Group: <https://chat.whatsapp.com/BWhOCHhbXpD2tiNF9JGXqp>

WhatsApp Channel: <https://whatsapp.com/channel/0029Vb7IABxCXC3J7ZFFsk2h>

GitHub Repo: <https://github.com/luckyfelistine-bot/maureonix>

TikTok: <https://vm.tiktok.com/ZS9LevY1LSrXD-wytcpl/>

COMMAND PREFIX

Default prefix: . (dot)

Example: .menu, .song, .sticker, .gpt

PAIRING CODE

If the bot asks for a pairing code, use the /pair endpoint or set your number in environment variable `BOT_NUMBER=254116903500`

FULL COMMAND LIST

Type .menu or .allmenu in any group where the bot is present.

DEPLOYMENT

The bot runs on Railway. Auto-restart and session persistence are enabled.

TIPS

- Use .song to download audio from YouTube.
- Use .video to download video (select quality).

- Use .sticker on any image/video to create a sticker.
- Use .gpt or .gemini to chat with AI.
- Use .privacy to change your WhatsApp privacy settings via the bot.
